

24 March 1960

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Persons Present at My Talk to Council of
Foreign Relations, 27 February 1960 / 1713

1. As I told you, Tick Bonesteel advised me positively that he was not present.
2. I finally reached Henry Kissinger, who had been away from his office for several days, and he checked his records and his recollection and advised me that he, too, had not been present.
3. I do not feel that I know Admiral Chester Ward well enough to question him, and I do not know Christopher Emmet at all.

ROBERT AMORY, JR.
